DOWNINGTOWN, PA – Continental FC Adds Andres Hurtado as ECNL Boys Director

With the inaugural Boys ECNL season approaching, we are pleased to announce Andres Hurtado as our new Boys ECNL Director. Andres joins us most recently from Liga Premier Infantil and Kirkwood Soccer Club where he has had increasing roles of responsibility including Director of Coaching and Director of their Urban league. In addition, he has experience working with the Delaware ODP and local college programs. His prior experiences working with Elite players and college athletes as well as his accomplishments in developing new and innovating programming make him uniquely qualified to lead our new Boys ECNL program.

“Youth soccer is constantly evolving and our goal at Continental FC is to be better today than we were yesterday. To that end we are excited to further enhance our tremendous Technical Staff with the recent appointment of Andres as our Boys ECNL Director” says Jack Lawler, President of Continental FC. “He has proven success working within the community to foster a love of the game and build a player development pathway. “

From Skip Thorp, CFC Technical Director, “I believe that the addition of Andres Hurtado to our staff will enable us to grow as a club. We have a previous work relationship - it was the way Andres went about developing players that made me want to get him on the staff for CFC. He has experience both in the US and Columbia. Although he is the ECNL Boys Director of Coaching, he will help with the vertical integration that we are trying to provide for all our players and coaches at CFC. I look forward to Andres’ arrival!”

“I am very excited to work with Continental Football Club. I know that my experience, hard work and diverse background will help the club for years to come. I’m very thankful with Continental FC and their staff for welcoming me in. I look forward to helping youth players meet their athletic and personal goals, making Continental FC the best club available”.

“To go alone is easier; you do not have to disagree with anyone. As a team, I tell you, is at another price. Before you start to compete, you have to beat the biggest ego of all, which is yours. You have to understand that it is not only good as you do it, that there are other ways.”

- Jose Pekerman
